

## Education

### Parsons The New School for Design

Master of Architecture MARCH

New York, NY

May, 2011

### Wentworth Institute of Technology

Study Abroad Campus

Bachelor of Science in Architectural

Engineering Technology BAET

Boston, MA

Berlin, Germany

August, 2007

## Professional Experience

November 2013 - current

### Design Display Group

Carlstadt, NJ

*Designer/Fabricator/Project Manager*

- Field manager for all jobs pertaining to millwork, or custom store fixturing and kiosks
- Create engineering drawings for production, based on client's design concept
- Work in fabrication shop creating prototypes and jigs for assembly set ups and production
- Used a multitude of materials and mediums to construct models

April 2014 - current

### BL Designs

Carlstadt, NJ

*Owner/Designer/Fabricator*

- Built high end architectural models of building designs supplied by clients
- Worked on various building typologies ranging from residential to cultural to high end mixed use towers
- Consulted in the planning of models, in regards to building methods and materials
- Used a multitude of materials and mediums to construct models

### Calvin Klein

*May 2012 & April 2013*

Constructed detailed physical models of new store designs. All materials used in the models were chosen specifically to mimic the textural qualities of those to be used in the proposed store. Heavy emphasis was given on producing a clean aesthetic representation tool to be used for design meetings, as well as for display in their corporate offices.

February 2012 - July 2013

### Officina Models

Brooklyn, NY

*Model Maker*

- Built high end architectural models of building designs supplied by clients
- Worked on various building typologies ranging from residential to cultural to high end mixed use towers
- Consulted in the planning of models, in regards to building methods and materials

February 2008 - August 2009

### Pelli Clarke Pelli Architects

New York, NY

*Designer/ Intern*

- Created study and final quality renderings of proposed building designs
- Created study and final quality physical models of proposed building designs
- Collaborated with senior associates and associates in creating building designs

## Technical Competence

### Software

AutoCAD, 3D Studio Max, Sketch-up Pro, Rhino, Adobe Suite, Solidworks, Rhino, Vectorworks, ArchiCAD, MasterCAM

### Design

Computer rendering, model making, final drawings, hand rendering, sketches

### Engineering

Model making (in wood, foam, chipboard, corrugated, REN), laser operations, LED wiring, soldering, cnc and vacuumforming

## Studio Experiences

### Shanghai Design Center

#### Shanghai Traveling Studio

Shanghai, China

*September 2010*

A site was chosen for a given program to create a design center. The school was integrated into the urban fabric to create a vertical extension of the streetscape.

### The New Studententhaus

#### Travel Abroad Studio

Berlin, Germany

*January - May 2007*

Redesign project in which an unused student center was converted into a retail space. The space was meant to directly relate to the attached courtyard, as well as attract people walking by.
